Wellesley College & Simmons College Hackathon
Apr 17-19 // Wellesley College // estimated 50-100 attendees

Mission
The main goal is to encourage learning new technologies and to provide networking opportunities between students and industry professionals by having integrated teams. The theme will be open to encourage building webapps, mobile apps, or software development tools. We will not be supporting hardware hacks at the event, but will not exclude hardware projects from submission.

In order to effectively foster a unique learning opportunity and a networking oriented experience, teams of 4-5 will be composed of a Wellesley student host (to provide living accommodations), students from other colleges, and a team mentor. This team construction will create an equal playing field for each team and allow intercollegiate networking.

Who is this for?
This hackathon is targeted toward women in CS. Students will be recruited from Boston area colleges.

Why sponsor?
1. Promote women in CS
2. Support intercollegiate collaboration
3. Mentoring/hacking with us will be a great way to interact with the participants, provide assistance to your API/service, and to network with Women in CS.

Ways to sponsor
Fly out 2-3 mentors from your company to hack with us or to provide general help [AND/OR]
Check out our sponsorship tiers below.

Sponsorship Tiers

Tier	Price	Benefits
0xbit!	$1,000- 1,750	food, prizes, student hacker travel, swag, and shirt logo
0xbyte	$1,750- 3,000	0xbit! + logo on website + attendee resumes
